🪪 PROFILE

As a highly skilled Frontend Engineer with over 5 years of experience, I specialize in building responsive, user-centric web applications. I possess a strong foundation in HTML, CSS, JavaScript, and modern libraries and frameworks such as React.js, Vue.js, and Angular. My expertise extends to optimizing web performance, ensuring cross-browser compatibility, and creating seamless user experiences through intuitive UI/UX design. With a passion for continuous learning and a collaborative approach to development, I have a proven track record of delivering high-quality code and innovative solutions to complex technical challenges.

🧠 SKILLS

Modern JavaScript Frameworks: React.js, Vue.js, Angular

Component-based architecture and state management (Redux, Vuex)

HTML5, CSS3, SASS/SCSS, JavaScript (ES6+), TypeScript

Wordpress development and WooCommerce integration

🎸 INTERESTS

Web Development Trends
Staying updated with the latest advancements in frontend technologies, JavaScript frameworks, and responsive design techniques to ensure modern, efficient, and scalable web solutions.

Open Source Contribution
Actively contributing to open-source projects, collaborating with the developer community, and improving web technologies.

Tech Conferences & Meetups
Attending and participating in tech events to network, share knowledge, and stay engaged with the web development community.
